

A Report on “One day workshop on Go Language”

by Prof. Hiren Patel

22-02-2018

Computer Science & Engineering Department of SNPIT&RC had organized one day workshop on “Go Language”. The workshop was conducted by Prof. Hiren Patel from SVIT, Vasad. Workshop was conducted with an initiative to improve the technical skills and to gain knowledge about new technical language. Total 60 students have participated in this workshop. The workshop started with theory session of 2 hours and practical portion was covered in post lunch session.

Workshop has covered many important aspects of Programming. The topics covered in the workshops were: About Go Language, Installation of Go language tool, Data Types, Variable, Keywords, Identifiers, Decision making statement, Looping statement, Array, Slice, and Map Function, Pointer, Structure and Interface, Concurrency, Example of web application, etc.

The overall experience of the workshop was good as Prof. Hiren Patel has cleared all the doubts and explained all the concepts in detail.
