The donors were provided with glucose water and food including biscuits and light snacks. It was great to see more people than expected to be in the venue. This stretched the capacity of the blood bank, as a result of which the contact details of the donors were taken so as to allow them to donate at the earliest to the blood bank. The samples were carefully sealed and transported away, while the volunteers helped in the cleaning-up of the area. Throughout the morning, there were smiles and laughter all around - a true embodiment of what we believe in - selfless service with a smile. The donors received certificate of recognition.
