### **A Report on World Environment Day Celebration on 05/06/2020 of S. N. Patel Institute of Technology and Research Centre, Umrakh**

**NSS Unit Name/College Name: S. N. Patel Institute of Technology and Research Centre,  
Umrakh**

**Event NAME: World Environment Day Celebration**

**Faculty Name: Prof. Hitesh Tailor**

**Event Date, Time and Location: 05/06/2020, 3.00pm, SNPITRC Cricket Ground**

#### **Brief Description of the Event:**

“Beat Plastic Pollution”, the theme for World Environment Day 2020, is a call to action for all of us to come together to combat one of the great environmental challenges of our time. Chosen by this year’s host, India, the theme of World Environment Day 2020 invites us all to consider how we can make changes in our everyday lives to reduce the heavy burden of plastic pollution on our natural places, our wildlife – and our own health. While plastic has many valuable uses, we have become over reliant on single-use or disposable plastic – with severe environmental consequences. Around the world, 1 million plastic drinking bottles are purchased every minute. 500 billion disposable plastic bags are used worldwide every year. In total, 50 per cent of the plastic we use is single use. Nearly one third of the plastic packaging we use escapes collection systems, which means that it ends up clogging our city streets and polluting our natural environment. Every year, up to 13 million tons of plastic leak into our oceans, where it

smothers coral reefs and threatens vulnerable marine wildlife. The plastic that ends up in the oceans can circle the Earth four times in a single year, and it can persist for up to 1,000 years before it fully disintegrates. Plastic also makes its way into our water supply – and thus into our bodies. What harm does that cause? Scientists still aren't sure, but plastics contain a number of chemicals, many of which are toxic or disrupt hormones. Plastics can also serve as a magnet for other pollutants, including dioxins, metals and pesticides. Shri Sitarambhai Naranjibhai Patel Institute of Technology and Research Centre, UmraKh and Vidhyabharti Trust campus colleges jointly organize tree plantation on the location of world environment in this event all trustees and various college principal are present.
